HAWAII
In the years since President David O. McKay first envisioned an institution of higher learning in Laie, Brigham Young University–Hawaii has emerged as the preeminent international center of education in the Pacific. BYU–Hawaii is an accredited undergraduate institution with 3,000 students from more than 70 countries. Our focus is on educating the minds, hearts, and characters of our students, thereby sharpening their integrity and desires to serve—all while living and learning in one of the most beautiful places on earth. We develop leadership in a harmonious, multicultural environment, preparing students to embrace the opportunities and challenges of a global community where our graduates contribute and provide leadership in their families, their communities, their chosen fields, and in building the kingdom of God.
Timothy J. Dyches was sustained as a General Authority Seventy of The Church of Jesus Christ of Latter-day Saints on April 6, 2013.

Timothy J. Dyches was born in Murray, Utah, on January 15, 1951. He married Jill Elizabeth Dudley in April 1974. They are the parents of three children.

He attended Brigham Young University, where he earned a bachelor’s degree in university studies. He received his medical degree and his specialty training at Washington University Medical School in St. Louis, Missouri.

He served in numerous Church callings, including full-time missionary in the Germany South Mission (1970–1972), high councilor, stake president, temple ordinance worker, Area Seventy, president of the Oregon Portland Mission (2008–2011), and deacons quorum adviser.

At the time of his call, Elder Timothy J. Dyches was serving in a ward Young Men presidency.

He served as a member of the Europe Area Presidency from August 2013 to August 2016 and is currently serving at Church headquarters as an assistant executive director in the Temple Department and chairman of the Restoration and Cancellation Committee.

In 1985 he began a private practice performing ear, nose, throat, and head and neck surgery until 2008, when he departed to serve as a mission president.

Origins and Significance of Academic Regalia

“The origins of academic dress date back to the 12th and 13th centuries, when universities were taking form.... Long gowns were worn and may have been necessary for warmth in unheated buildings. Hoods seem to have served to cover the tonsured head until superseded for that purpose by the skull cap.

In the days of Henry VIII of England, Oxford and Cambridge first began prescribing a definite academic dress and made it a matter of university control even to the extent of its minor details. The assignment of colors to signify certain faculties was to be a much later development, and one which was to be standardized only in the United States in the late 19th century. White taken from the white fur trimming of the Oxford and Cambridge B.A. hoods was assigned to arts and letters. Red, one of the traditional colors of the church, went to theology. Green, the color of medieval herbs, was adopted for medicine, and olive, because it was so close to green, was given to pharmacy. Golden yellow, standing for the wealth which scientific research has produced, was assigned to the sciences.

.... In 1893, an Intercollegiate Commission made up of representatives of leading institutions gathered to establish a suitable system of academic apparel. ... In 1932 the American Council on Education authorized the appointment of a committee "to determine whether revision and completion of the academic code adopted by the conference of the colleges and universities in 1895 is desirable at this time, and, if so, to draft a revised code and present a plan for submitting the code to the consideration of the institutional members of the Council." The committee reviewed the situation through correspondence and conference and approved a code for academic costumes that has been in effect since that year.

A Committee on Academic Costumes and Ceremonies, appointed by the American Council on Education in 1959, again reviewed the costume code and made several changes. In 1986, the committee updated the code and added a sentence clarifying the use of the color dark blue for the Doctor of Philosophy (Ph.D.) degree.

Gowns
The gown for the bachelor's degree has pointed sleeves. It is designed to be worn closed. The gown for the master's degree has an oblong sleeve, open at the wrist, like the others. The sleeve base hangs down in the traditional manner. The rear part of its oblong shape is square cut, and the front part has an arc cut away. The gown is so designed and supplied with fasteners that it may be worn open or closed. The gown for the doctor's degree has bell-shaped sleeves. It is so designed and supplied with fasteners that it may be worn open or closed.

Hoods
The length of the hood worn for the bachelor's degree must be three feet, for the master's degree three and one-half feet, and for the doctor's degree, four feet. The hood worn for the doctor's degree only shall have panels at the sides. The hoods are to be lined with the official color or colors of the college or university conferring the degree.

Caps
Mortarboards are generally recommended. A long tassel is to be fastened to the middle point of the top of the cap only and to lie as it will thereon. The tassel should be black or the color appropriate to the subject, with the exception of the doctor's cap that may have a tassel of gold.”

– American Council on Education

Academic Colors
For all academic purposes, including trimmings of doctors’ gowns, edging of hoods, and tassels of caps, the colors associated with the different disciplines are as follows:
